Energy efficiency strategies not captured above:

IE: Other than Energy Star Pool - or Energy Star Building Certification

We anticipate being eligible for the following menu items available under DOB's Green Building Permit Requirements:

- Earn a minimum of 4 points under EAc1 Optimize Energy Performance. We are currently earning 7 points under EAc1 Optimize Energy Performance.
- A partial green roof will be provided in accordance with the standards for the planned development.
- This school is within walking distance of a transit-oriented development with a vibrant shopping district at Devon, Caldwell, and Central. It includes one METRA stop, 2 PACE bus lines and 2 CTA bus lines. The METRA stop is less than 1/2 mile from the school.

Other sustainable strategies and/or Project Notes:

In addition, the school will likely to qualify for these menu items also:

- If the school receives a grant, a pv array may provide 1% of the total annual energy use from on-site renewables.
- Meet LEED requirements for water efficiency and exceed requirements of the Chicago Stormwater Ordinance.
- Exceed LEED requirements for bicycle parking.
