**DEPARTMENT OF PLANNING AND DEVELOPMENT
CITY OF CHICAGO**

February 05, 2026

Paul Shadle
DLA Piper LLP
444 West Lake Street, Suite 900
Chicago, IL 60609

Re: Minor Change for PD No. 1521, 7 W. Elm Street

Dear Mr. Shadle:

Please be advised that your request for a minor change to Planned Development No. 1521 (“PD 1521”), has been considered the Department of Planning and Development pursuant to Section 17-13-0611 of the Chicago Zoning Ordinance and Statement No. 12 of the PD. On behalf of your client and sole owner of PD 1521, State Elm LLC, you are seeking administrative relief to allow for the following modifications associated with the construction of a 312-foot-tall mixed-use building with 304 dwelling units and a maximum floor area ratio of 11.5:

Bulk Regulations and Data Table

1. Eliminate references to subareas.
2. Reduce the minimum required loading spaces to from three to two.
3. Reduce the maximum building height from 351 feet to 345 feet.

Exhibits

1. Eliminate subareas.
2. Set back the building’s façade from the property line.
3. Provide parkway trees along the State Street frontage.
4. Modify certain upper-level setbacks.
5. Construct the building in a single phase rather than two phases.
6. Set back the tower above the building base along Elm Street.
7. Angle the tower to increase the upper-level setback at the Elm/State corner of the site.
8. Reduce the maximum building height from 351 feet to 312 feet.
9. Reduce the total floor area ratio (FAR) from 11.5 to 11.15.
10. Reduce loading spaces from three to two.

The following revised documents and drawings, dated December 15, 2025, are attached:

1. Bulk Regulations and Data Table
2. Exhibits

121 NORTH LASALLE STREET, ROOM 1101, CHICAGO ILLINOIS 60602

- a. Site Plan & Landscape Plan
- b. Ground Plan
- c. Roof Plan
- d. North Elevation
- e. East Elevation
- f. South East Elevation
- g. West Elevation
- h. South West Elevation
- i. North West Elevation

With regard to your request, the Department of Planning and Development has determined that allowing the proposed modifications will not create an adverse impact on the Planned Development or surrounding neighborhood, will not result in an increase in the bulk or density, and will not change the character of the development, and therefore, would constitute a minor change.

Accordingly, pursuant to the authority granted by the Chicago Zoning Ordinance and PD 1521, I hereby approve the foregoing minor change, but no other changes to this Planned Development. This minor change is valid for twelve (12) months from the date of this letter unless action to implement the minor change is commenced within such time period and thereafter diligently pursued to completion, including, if applicable, construction consistent with the minor change as authorized by a building permit. If action to implement the minor change, including construction, does not begin within the time set forth, or does not proceed with reasonable diligence, then the approval will lapse and become null and void.

Sincerely,

Noah Szafraniec

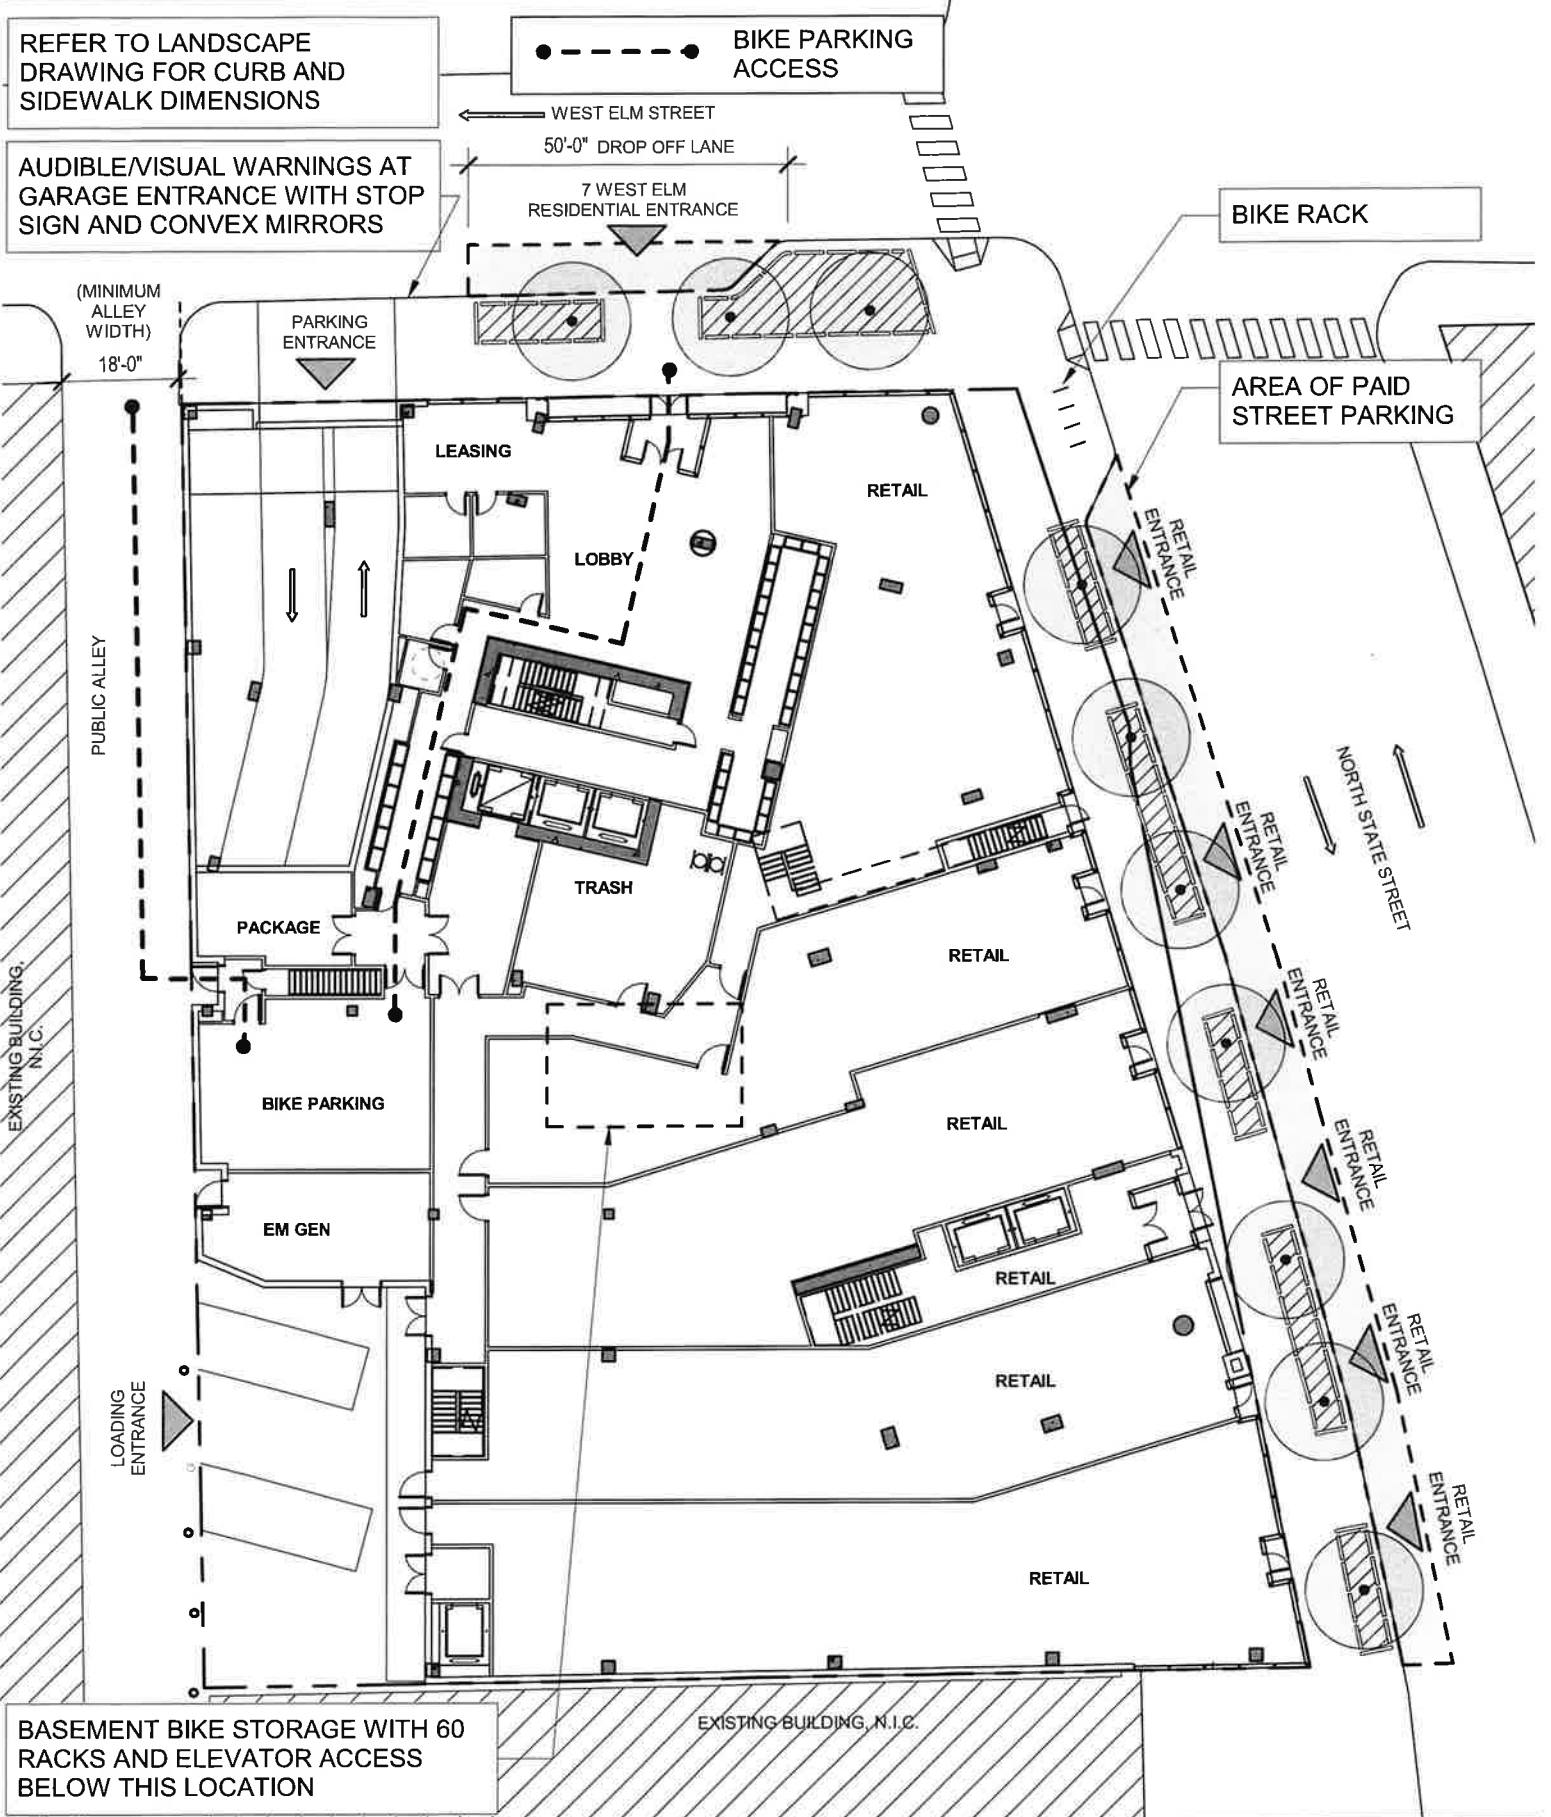

Assistant Commissioner - Planned Developments and Plan Commission

C: Mike Marmo, Main file

**Re: Minor Change to Residential-Business Planned Development No. 1521
1120-30 N. State Street – Subarea A**

Dear Ms. Janke Dale,

Please be advised that your request for a minor change to Residential-Business Planned Development No. 1521 (“PD 1521”) has been considered by the Department of Planning and Development pursuant to Section 17-13-0611 of the Chicago Zoning Ordinance and Statement Number 12 of PD 1521.

Quick’s LLC, the owner of Subarea A in PD 1512, is seeking a minor change to increase the maximum permitted building height of 345’ in Subarea A in PD 1512 to 351’. During the final design, several slight changes have caused a 6-foot (i.e., less than 2%) height increase. Specifically, Developer requests the following height increases:

- A 1’-0” increase at Level 05 as a result of needing more system depth to accommodate plumbing and mechanical transfers, and the exterior slab level change for the green roof;
- A 1’-0” increase at Level 20 as a result of needing more system depth on the south elevation at the exterior massing change for green roof drainage and ceiling plenum space for plumbing and mechanical transfers;
- A 1’-0” increase at Level 21 as a result of needing more system depth to accommodate plumbing and mechanical transfers, and the exterior slab level change for the green roof;
- A 1’-6” increase at Level 29 as a result of needing more system depth to accommodate structural, plumbing and mechanical transfers; and
- A 1’-6” increase at Level 30 as a result of needing more system depth to accommodate structural, plumbing and mechanical transfers.

The approval includes a revised bulk table and the following attached documents prepared by Solomon Cordwell Buenz Architects and dated July 29, 2022:

- Subarea A Elevations – South, West, North, East

- Subarea A & B Elevations - South, West, North, East

Regarding your request, the Department of Planning and Development has determined that allowing the proposed modifications will not create an adverse impact on the Planned Development or surrounding neighborhood, will not result in an increase in the bulk or density, and will not change the character of the development, and therefore, would constitute a minor change. Accordingly, pursuant to the authority granted by the Chicago Zoning Ordinance and PD 1521, I hereby approve the foregoing minor change, but no other changes to this Planned Development.

This minor change is valid for twelve (12) months from the date of this letter unless action to implement the minor change is commenced within such period and thereafter diligently pursued to completion, including, if applicable, construction consistent with the minor change as authorized by a building permit. If action to implement the minor change, including construction, does not begin within the time set forth, or does not proceed with reasonable diligence, then the approval will lapse and become null and void.

Sincerely,

Noah Szafraniec,
Assistant Commissioner

REPORTS OF COMMITTEES

20728

36309

Reclassification Of Area Shown On Map No. 3-F.

(As Amended)

(Application No. 20728)

(Common Address: 1120 -- 1130 N. State St.)

RBPID 1521

[SO2021-2144]

Be It Ordained by the City Council of the City of Chicago:

SECTION 1. That the Chicago Zoning Ordinance be amended by changing all of the DX-7 Downtown Mixed-Use District symbols and indications as shown on Map Number 3-F in the area bounded by:

West Elm Street; North State Street; a line 200 feet south of and parallel to West Elm Street; and the 18.5-foot public alley next west of and parallel to North State Street,

to those of a Residential-Business Planned Development, which is hereby established in the area above described, subject to such use and bulk regulations as are set forth in the Plan of Development herewith attached and made a part thereof and to no others.

SECTION 2. This ordinance shall be in force and effect from and after its passage and due publication.

Plan of Development Statements referred to in this ordinance read as follows:

Residential-Business Planned Development No. 1521.

Planned Development Statements.

1. The area delineated herein as Planned Development Number 1521 ("Planned Development") consists of approximately 30,747 square feet of property which is depicted on the attached Planned Development Properly Line and Boundary Map (the "Property") and is owned or controlled by the "Applicant", Quick's LLC.
2. The requirements, obligations and conditions contained within this Planned Development shall be binding upon the Applicant, its successors and assigns and, if different than the Applicant, the legal titleholders and any ground lessors. All rights granted hereunder to the Applicant shall inure to the benefit of the Applicant's successors and assigns and, if different than the Applicant, the legal titleholder and any ground lessors. Furthermore, pursuant to the requirements of Section 17-8-0400 of the Chicago Zoning Ordinance, the Property, at the time of application for amendments, modifications or changes (administrative, legislative or otherwise) to this Planned Development are made, shall be under single ownership or designated control. Single designated control is defined in Section 17-8-0400.

3. All applicable official reviews, approvals or permits are required to be obtained by the Applicant or its successors, assignees or grantees. Any dedication or vacation of streets or alleys or grants of easements or any adjustment of the right-of-way shall require a separate submittal to the Department of Transportation ("CDOT") on behalf of the Applicant or its successors, assigns or grantees.

Any requests for grants of privilege, or any items encroaching on the public way, shall be in compliance with the Planned Development.

Ingress or egress shall be pursuant to the Planned Development and may be subject to the review and approval of the Department of Planning and Development ("DPD") and CDOT. Closure of all or any public street or alley during demolition or construction shall be subject to the review and approval of CDOT.

Pursuant to a negotiated and executed Perimeter Restoration Agreement ("Agreement") by and between CDOT's Division of Infrastructure Management and the Applicant, the Applicant shall provide improvements and restoration of all public way adjacent to the property, which may include, but not be limited to, the following as shall be reviewed and determined by CDOT's Division of Infrastructure Management:

- Full width of streets
- Full width of alleys
- Curb and gutter
- Pavement markings
- Sidewalks
- ADA crosswalk ramps
- Parkway and landscaping

The Agreement must be executed prior to any CDOT and Planned Development Part II review permitting. The Agreement shall reflect that all work must comply with current Rules and Regulations and must be designed and constructed in accordance with the Department of Transportation's Construction Standards for Work in the Public Way and in compliance with the Municipal Code of Chicago Chapter 10-20. Design of said improvements should follow CDOT's Rules and Regulations for Construction in the Public Way as well as The Street and Site Plan Design Guidelines. Any variation in scope or design of public way improvements and restoration must be approved by CDOT.

In addition, owing to the unique infrastructure challenges in the adjacent area, the Applicant has agreed to establish and fund an escrow in the amount of \$500,000

(the "Escrow Amount") prior to the issuance of any building permits (the "Gold Coast Pedestrian Improvement Fund"). The Gold Coast Pedestrian Improvement Fund will fund work to be performed by or at the direction of, and with the approval of, CDOT within a quarter mile of the Property including, but not limited to, sidewalk paving, landscaping and landscaping-related fencing or raised islands, lighting, street paving changes to facilitate sidewalk widening or landscaping, and installation of bike racks and/or seating amenities located in the Public Way. The Applicant's responsibility shall be limited to the Escrow Amount and any sums remaining in the Gold Coast Pedestrian Improvement Fund sixty (60) months following the issuance of a certificate of occupancy shall be remitted to the Applicant.

4. This plan of development consists of 17 Statements; a Bulk Regulations Table; P.D. Boundary and Property Line Map; Subarea Map; an Existing Zoning Map; an Existing Land-Use Map; a Landscape and Site Plan (Subarea A and Subarea A + B); Site, Landscape, and Ground Floor Plan (Subarea A and Subarea A + B); a Roof Plan; Building Elevations (North, South, East and West; Subarea A and Subarea A + B) and Axons (Top, Middle and Base), prepared by Solomon Cordwell Buenz and dated August 26, 2021 and an Affordable Housing Profile Form submitted herein. In any instance where a provision of this Planned Development conflicts with the Chicago Building Code, the Building Code shall control. This Planned Development conforms to the intent and purpose of the Chicago Zoning Ordinance, and all requirements thereto, and satisfies the established criteria for approval as a Planned Development. In case of a conflict between the terms of this Planned Development ordinance and the Chicago Zoning Ordinance, this Planned Development shall control.
5. The following uses are permitted in the area delineated herein as a Planned Development: dwelling units located above the ground floor; animal services (excluding shelter and boarding kennels and stables); artist work or sales space; business support services; eating and drinking establishments; financial services; food and beverage retail sales; vacation rental; office; personal service; general retail sales; indoor participant sports and recreation; co-located wireless communication facilities and related, incidental and accessory uses and accessory parking.
6. On-premises signs and temporary signs, such as construction and marketing signs, shall be permitted within the Planned Development, subject to the review and approval of the DPD. Off-premises signs are prohibited within the boundary of the Planned Development.
7. For purposes of height measurement, the definitions in the Chicago Zoning Ordinance shall apply. The height of any building shall also be subject to height limitations, if any, established by the Federal Aviation Administration.
8. The maximum permitted floor area ratio (FAR) for the Property shall be in accordance with the attached Bulk Regulations and Data Table. For the purpose of FAR

calculations and measurements, the definitions in the Zoning Ordinance shall apply. The permitted FAR identified in the Bulk Regulations and Data Table has been determined using a net site area of 30,747 square feet and a base FAR of 7.0. The Applicant acknowledges that the project has received a bonus FAR of 4.5 FAR, pursuant to Section 17-4-1000 of the Zoning Ordinance. With this bonus FAR, the total overall FAR for the Planned Development is 11.5. In exchange for the bonus FAR, the Applicant is required to make a corresponding payment, pursuant to Sections 17-4-1003-B and C, prior to the issuance of the first building permit for any building; provided, however, if the Planned Development is constructed in phases, the bonus payment may be paid on a pro rata basis as the first building permit for each subsequent new building or phase of construction is issued. The bonus payment will be recalculated at the time of payment (including partial payments for phased developments) and may be adjusted based on changes in median land values in accordance with Section 17-4-1003-C.3.

The bonus payment will be split between three separate funds, as follows: 80 percent to the Neighborhoods Opportunity Fund, 10 percent to the Citywide Adopt-a-Landmark Fund and 10 percent to the Local Impact Fund. In lieu of paying the City directly, the Department may: (a) direct developers to deposit a portion of the funds with a sister agency to finance specific local improvement projects; (b) direct developers to deposit a portion of the funds with a landmark property owner to finance specific landmark restoration projects; or (c) approve proposals for in-kind improvements to satisfy the Local Impact portion of the payment.

9. Upon review and determination, Part II review, pursuant to Section 17-13-0610, a Part II review fee shall be assessed by DPD. The fee, as determined by staff at the time, is final and binding on the Applicant and must be paid to the Department of Revenue prior to the issuance of any Part II approval.
10. The Site and Landscape Plans shall be in substantial conformance with the Landscape Ordinance and any other corresponding regulations and guidelines, including Section 17-13-0800. Final landscape plan review and approval will be by DPD. Any interim reviews associated with site plan review or Part II reviews, are conditional until final Part II approval.
11. The Applicant shall comply with Rules and Regulations for the Maintenance of Stockpiles promulgated by the Commissioners of the Departments of Streets and Sanitation, Fleet and Facility Management and Buildings, under Section 13-32-085, or any other provision of the Municipal Code of Chicago.
12. The terms and conditions of development under this Planned Development ordinance may be modified administratively, pursuant to Section 17-13-0611-A, by the Zoning Administrator upon the application for such a modification by the Applicant, its successors and assigns and, if different than the Applicant, the legal titleholders and any ground lessors.

13. The Applicant acknowledges that it is in the public interest to design, construct and maintain the project in a manner which promotes, enables and maximizes universal access throughout the Property. Plans for all buildings and improvements on the Property shall be reviewed and approved by the Mayor's Office for People with Disabilities to ensure compliance with all applicable laws and regulations related to access for persons with disabilities and to promote the highest standard of accessibility.
14. The Applicant acknowledges that it is in the public interest to design, construct, renovate and maintain all buildings in a manner that provides healthier indoor environments, reduces operating costs and conserves energy and natural resources. The Applicant shall obtain the number of points necessary to meet the requirements of the Chicago Sustainable Development Policy, in effect at the time the Part II review process is initiated for each improvement that is subject to the aforementioned policy and must provide documentation verifying compliance.
15. The Applicant acknowledges that it is the policy of the City to maximize opportunities for Minority- and Women-owned Business Enterprises ("M/WBEs") and city residents to compete for contracts and jobs on construction projects approved through the planned development process. To assist the City in promoting and tracking such M/WBE and city resident participation, an applicant for planned development approval shall provide information at three points in the city approval process. First, the applicant must submit to DPD, as part of its application for planned development approval, an M/WBE Participation Proposal. The M/WBE Participation Proposal must identify the applicant's goals for participation of certified M/WBE firms in the design, engineering and construction of the project, and of city residents in the construction work. The City encourages goals of (i) 26 percent MBE and 6 percent WBE participation (measured against the total construction budget for the project or any phase thereof), and (ii) 50 percent city resident hiring (measured against the total construction work hours for the project or any phase thereof). The M/WBE Participation Proposal must include a description of the applicant's proposed outreach plan designed to inform M/WBEs and city residents of job and contracting opportunities. Second, at the time of the applicant's submission for Part II permit review for the project or any phase thereof, the applicant must submit to DPD (a) updates (if any) to the applicant's preliminary outreach plan, (b) a description of the applicant's outreach efforts and evidence of such outreach, including, without limitation, copies of certified letters to M/WBE contractor associations and the ward office of the alderman in which the project is located and receipts thereof; (c) responses to the applicant's outreach efforts, and (d) updates (if any) to the applicant's M/WBE and city resident participation goals. Third, prior to issuance of a Certificate of Occupancy for the project or any phase thereof, the applicant must provide DPD with the actual level of M/WBE and city resident participation in the project or any phase thereof, and evidence of such participation. In addition to the foregoing, DPD may request such additional information as the department determines may be necessary or useful in evaluating

the extent to which M/WBEs and city residents are informed of and utilized in planned development projects. All such information will be provided in a form acceptable to the Zoning Administrator. DPD will report the data it collects regarding projected and actual employment of M/WBEs and city residents in planned development projects twice yearly to the Chicago Plan Commission and annually to the Chicago City Council and the Mayor.

16. The Applicant acknowledges and agrees that the rezoning of the Property from DX-7 Downtown Mixed-Use District to this Planned Development (P.D.), triggers the requirements of Section 2-44-080 of the Municipal Code (the "Affordable Requirements Ordinance" or "ARO"). Any developer of a "residential housing project" within the meaning of the ARO must: (i) set aside 10 percent of the housing units in the residential housing project (ARO Units) as affordable units, or with the approval of the Commissioner of the Department of Housing ("DOH"), subject to the transition provisions of Section 2-44-040(c), in consultation with the Commissioner of the Department of Planning and Development ("DPD") as appropriate (here, the "Commissioner"); (ii) pay a fee in lieu of the development of the Required Units ("Cash Payment"); or, (iii) any combination of (i) and (ii); provided, however, that residential housing projects with 20 or more units must provide at least 25 percent of the Required Units on-site or off-site. If the developer elects to provide affordable units off-site, the off-site affordable units must be located within a two-mile radius from the residential housing project and in the same or a different higher income area or downtown district. The Property is located in a downtown district within the meaning of the ARO, and the project has a total of 304 units. As a result, the Applicant's affordable housing obligation is 30 ARO Units (10 percent of 304 rounded down), 8 of which are Required Units (25 percent of 30 rounded up). Applicant has agreed to satisfy its affordable housing obligation by making a cash payment to the Affordable Housing Opportunity fund in the amount of \$187,939 per unit ("Cash Payment") and providing 8 affordable units in the rental building to be constructed in the P.D., as set forth in the Affordable Housing Profile Form attached hereto as an exhibit. The Applicant agrees that the affordable units must be affordable to households earning no more than 60 percent of the Chicago Primary Metropolitan Statistical Area Median Income (AMI), as updated annually by the City of Chicago. If the Applicant subsequently reduces (or increases) the number of housing units in the P.D., or elects to build a for-sale project instead, the Applicant shall update and resubmit the Affordable Housing Profile Form to DPD for review and approval; DPD may adjust the requirements and number of required Affordable Units without amending the P.D. Prior to the issuance of any building permits for any residential building in the P.D., including, without limitation, excavation or foundation permits, the Applicant must make the required Cash Payment and/or execute and record an affordable housing agreement in accordance with Section 2-45-115(L). The terms of the affordable housing agreement and any amendments thereto are incorporated herein by this reference. The Applicant acknowledges and agrees that the affordable housing agreement will be recorded against the P.D., or the applicable portion thereof, and will

constitute a lien against such property. The Commissioner of DPD may enforce remedies for any breach of this Statement 16, including any breach of any affordable housing agreement, and enter into settlement agreements with respect to any such breach, subject to the approval of the Corporation Counsel, without amending the P.D.

- 17. This Planned Development shall be governed by Section 17-13-0612. Should this Planned Development ordinance lapse, the Zoning Administrator shall initiate a zoning map amendment to rezone the Property to the DX-7 Downtown Mixed-Use District.

[Affordable Unit Location and Floor Plan; Boundary and Property Line Map; Subarea Map; Existing Zoning Map; Existing Land-Use Map; Site and Landscape Plans; UND Plans; Roof Plan; North, South, East and West Building Elevations; and Building Axons referred to in these Plan of Development Statements printed on pages 36317 through 36340 of this Journal.]

Bulk Regulations and Data Table, ARO Affordable Housing Profile Form (AHP) and ARO Web Form referred to in these Plan of Development Statements read as follows:

Residential-Business Planned Development, Number 1521.

Bulk Regulations And Data Table.

Gross Site Area (square feet):	44,935
Area of Public Rights-of-Way (square feet):	14,188
Net Site Area (square feet):	30,747
Subarea A:	19,720
Subarea B:	11,027

Maximum Floor Area Ratio:	11.5
