Re: Request for a minor change to Residential
Planned Development No. 629 (Block X -
Buildings 1 through 5)
Location: An area located at the southeast
corner of West Washington Boulevard and North
Racine Avenue - 1145 W. Washington Boulevard

Dear Mr. Barry:

The Department of Planning and Development has considered your request on behalf of Washington Boulevard L.L.C., for a minor change to Residential Planned Development No. 629, and hereby approves your request pursuant to the authority granted by Section 11.11-3(c) of the Chicago Zoning Ordinance and Statement No. 11 of Residential Planned Development No. 629, and is hereby approved.

In your letter dated September 24, 1997, you requested that the Site Plan originally approved by the Chicago City Council on March 19, 1997 be modified to reflect changes in building setbacks for five (5) previously approved residential buildings. Specifically, you requested a reduction in the front yard setbacks for Buildings No. 1 and 2 from the required two (2) feet to a proposed zero (0) foot setback from the north property line along Washington Street; a shift in the locations of the two buildings located in the center of the Site (buildings 3 and 4), to a position 1.89 feet to the south; and an increase in the rear setback for Building No 5 of 0.77 feet to a total one (1) foot setback from the south property line along the existing alley. Please note that the setback changes for Buildings 3, 4, and 5 result in a minor decrease in distances between Building No. 5 and both Buildings No. 3 and 4 of approximately 2.66 feet. These modifications are depicted on the Site/Ground Floor Plan prepared by PappaGeorge Haymes Ltd., dated revised September 24, 1997.

You indicated in your letter that these setback changes are the result of engineering and scheduling concerns which led the owner to

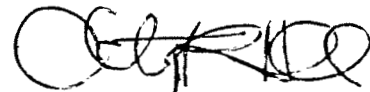

change from previous brick/block construction to brick/metal stud construction. In so doing, it was learned that the Building Code for this type of construction requires a minimum thirty (30) foot separation between buildings. These proposed setback changes enable the Applicant to maintain the required minimum distances between all buildings.

You further indicated that the building elevations and floor plans for all of the buildings originally approved per the Part II approval dated August 19, 1997, will not change as a result of this request. Please note that this revised Site Plan submittal shall replace the Site Plan approved as part of the Part II approval of August 19, 1997.

The Department of Planning and Development has determined that these setback revisions will not alter the character of the project nor adversely impact the surrounding neighborhood. With regard to your request, the Department of Planning and Development has determined that the modifications would constitute minor changes pursuant to Section 11.11-3 (c) of the Chicago Zoning Ordinance and Statement No. 11 of Residential Planned Development No. 629.

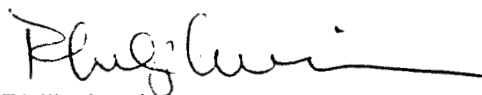

Accordingly, pursuant to the authority granted by the Chicago Zoning Ordinance and Residential Planned Development No. 629, I hereby approve the foregoing minor changes, but no other changes to Residential Planned Development No. 629.

Very truly yours,

Christopher R. Hill
Commissioner
